

It is planned that the cabins will contain the following scale detail:

GREAT CABIN will display a Captain's table on which there will be various charts and a 3 candle stand with flickering flames. There will also be 4/6 chairs, bookcase with books, oil lantern above table and two candle lamps both of which will be lit. Several figures will also be added.

COACH CABIN will display a table, lit candle lamp, seating and cannon.

STATEROOM will only contain a bunk and cannon.

All items will need to be securely fixed as once the hull and deck planking are added, access cannot be obtained to fix anything that may become loose through handling the hull for the remainder of the build.

The above is only a basic description of the changes to be made, and once the modifications are completed, the model can be continued according to the plans as no external hull/deck dimensions will have changed.
